25X1 5. [] LIAISON Saw Dick Anderson, House Permanent Select Committee on Intelligence staff, who asked whether approvals for electronic surveillance within the United States for purposes of gathering foreign intelligence are obtained by listing target countries or by individual installations. I called []
✓ Special Assistant to the DCI for Counterintelligence, and after talking to him assured Mr. Anderson that requests for approval are based on listing of individual target installations.

25X1

25X1 Mr. Anderson is still interested in obtaining evaluations or, better said, an understanding of how evaluations are arrived at. [] advised me that Mr. Anderson will be talking to someone at the Department of State on this subject

25X1 Pat Long also said that the Committee was upset to learn from the press rather than from us that there were []

25X1

25X1 [] Mr. Long's basic point was that the Agency could probably do a lot better in keeping the Committee fully and currently informed.

25X1 7. [] LIAISON Jon Holstine, House International Relations Committee Subcommittee on Asian and Pacific Affairs staff, called to request a copy of a VNA radio broadcast, which originated in Vietminh Laos on 31 October 1978. The broadcast was dealing with a column by Evans and Novak in today's Washington Post. The article alleged that the new broadcast was actually the work of Soviet "disinformation" elements. After checking with FBI/Liaison, I informed Mr. Holstine that a text of the broadcast appeared in the Annex to the FBIS Asian and Pacific Daily Report for 2 November 1978.
